

Butterfly and Laser sailors

Your sailboats will be sailed from the beach accessed via the public access road near 2499 Pilgrim Highway (M-22) approximately half a mile south of the CLYC (see map). The road entrance will be clearly marked by a sign. **There is no parking whatsoever at this access sight.** Sailors must remove their trailer to the designated trailer parking lot immediately after unloading.

It is suggested that Butterfly and Laser skippers unload their boats on this beach prior to registering as there is no parking at the CLYC. After securing their boat/s on the beach, sailors should proceed to the trailer parking area noted on the map and then come to the Yacht Club to register/check in. Shuttle vehicles will be provided.

The area available for beaching your boat will be clearly marked. In addition, a flag will be flying from the dock you will use to be picked-up by the water taxi that will shuttle you to and from the yacht club.

While the area where your boat is beached is unsecured, it is surrounded by private property owned by CLYC members.
