World's Fastest Woodpussy Sails!

"…My intent for the WoodPussy Sail is to have an All Purpose design that will not let you down in any particular condition. I believe I've achieved that with a balance of Luff curve and Seam shaping that allows for power to get going, while maintaining a entry shape that is forgiving to wind change's to prevent stalling, while helping to point high while going fast forward…" Henry Bossett, Sail Designer/Consultant North Sails
